**TAUNGURUNG**

The Taungurung people occupy much of central Victoria and traditionally their people lived a hunter/gatherer existence. The various clan groups of: Benbendore-balluk, Buthera-balluk, Gunung-Yellam, Leuk-willam, Moomoomgoonbeet, Nattarak-balluk, Ngurai-illam-balluk, Nira-balluk, Tenbringnellams, Walledriggers, Waring-illam-balluk, Warrinillum, Yaran-illam, Yirun-illam-balluk, and Yowung-illam-balluk, migrated on seasonal basis through their territory dependent upon the seasonal variations of weather and the availability of food.

The Taungurung people are closely affiliated with the neighbouring tribes, through language, ceremonies and kinship ties. They are part of an alliance with the five adjoining tribes to form the Kulin Nation. Other members of the Kulin Nation are the Woiwurrung, Boonwurrung, Wathaurung, and Djadjawrung. The Kulin Nation group also shares common dreamtime ancestors and creation stories, religious beliefs and economic and social relationships.

*taungurung.com.au*

*We acknowledge the traditional custodians of the land now known as Strathbogie Shire – the people of the Taungurung and Yorta Yorta, and value the significance of the first peoples history as essential to the unique character of the Shire.*

## YORTA YORTA

The Yorta Yorta People are the Traditional Owners of a unique stretch of territory known as the Murray—Goulburn Region. Our lands lie on both sides of the Dhungala (Murray) River into NSW and Victoria and follows the Kaiela (Goulburn) River, through the Strathbogie Region. Our lifestyle is based on hunting and fishing, as the majority of our food and sustenance is provided from the network of rivers, lagoons, creeks and lakes which were and are still regarded as the life source for Yorta Yorta People. The Yorta Yorta Nation is represented by 16 Family Clan Groups, from within 8 clan areas, all speaking the Yorta Yorta language with some regional variations. Today the Yorta Yorta Nation remain in their traditional lands and number in the thousands with a proud history and Culture.

# Explore our Region

Love the Location  
Love the Lifestyle  
Love the Adventure

When visiting our stunning region by either car, train or bike, traveling around and exploring the area can be done by using one of the major roads, rail or highway networks. Alternatively, you can slow down a bit, explore the backroads and 'take the road less travelled' to see what adventures you may discover along the way!

Railway stations are located in the townships of Avenel, Euroa, Nagambie, Seymour and Violet Town, (check out the VLine or PTV website for timetable details) or by car you can travel straight up the Hume Freeway and connect with the Goulburn Valley Highway.

Our region has earned a reputation as an outstanding area for both breeding and training horses, and it is the **Birthplace of a Legend – Black Caviar**. Now immortalised in bronze in the heart of Nagambie, visitors can admire the power of Black Caviar in full flight, and learn more about her story at the **Nagambie Visitor Information Centre** just next door.

In **Honouring Our Heroes**, Strathbogie Shire is the birthplace of not one but **three Victoria Cross recipients** – Australia and the British Commonwealth's highest award for acts of bravery in wartime. As only 100 were awarded nationwide to Australians at war since 1854, this makes our region a place of considerable **historical and military significance**, and a memorial to honour Leslie Maygar, Frederick Tubb and Alex Burton can be found in Seven Creeks parkland at the Euroa RSL.

If it's **great wine and gourmet produce** that you're after, this region has plenty on offer with award winning wineries, eclectic eateries and magnificent markets all waiting to be explored.

### WHY WE LOVE AVENEL

Once an important coach stop for **Cobb & Co** on the route from Melbourne to Albury and for drovers and travellers to the goldfields in the north, Avenel also boasts one of provincial Victoria's most impressive bridges in the six-arch, stone crossing of Hughes Creek which was built by Hugh Dalrymple in 1850 and originally had a tollgate and toll keepers Cottage nearby.

As well as being well known for the high quality wool the area produces, Avenel plays an important role in the legend of the infamous Australian bushranger, **Ned Kelly**, who spent his childhood living in the town and also attended the local primary school.

Nestled along the Hume Highway and with regular trains up to Albury or down to Melbourne, Avenel is now a bustling township with an ever growing population and hot spot for people looking for a simpler life and **idyllic for a relocation or weekend** with its cosy sights, small town comforts and connectivity to the region.

## WHY WE LOVE EUROA

The picturesque town of Euroa sits at the base of the Strathbogie Ranges, only 90 minutes from Melbourne via the Hume Freeway, and is home to both Seven Creeks and Castle Creek which adds to the beauty and serenity of the area.

Visited by Hume and Hovell in 1824 and also by Thomas Mitchell in 1837, Euroa grew up on the sheep's back after Squatters took up runs in the district in 1838. It was at Seven Creeks that the first fine-wool Saxon merino sheep in Victoria were introduced in 1851.

Euroa has a **fascinating history and a variety of attractions** and activities to visit whilst you are here. Adding character to this town are many of the buildings that were built at the height of Queen Victoria's era. Several of these buildings are located close to the main shopping precinct of Binney Street, with others located in Kirkland Avenue, Clifton and Railways Streets.

Historical buildings, Veteran memorials, great eateries, walks and trails as well as a page in the **Kelly Gang** story make Euroa worth the visit!

Live like a local in Graytown

Bill and Savannah, prospecting in Graytown

### WHY WE LOVE GRAYTOWN

Sitting halfway between Heathcote and Nagambie, and surrounded by Ironbark Forest, is Graytown. Formally known as Spring Creek and initially surveyed in 1848, it wasn't until 20 years later when **gold was discovered**, that Graytown exploded with 2,000 residents arriving in the following weeks. Between 1868 and 1870, Graytown enjoyed a population of 30,000, similar to Ballarat at the time, and an 1871 census recorded 511 buildings in the area.

In 1870 a freak storm hit Graytown and Spring Creek, along with neighbouring creeks, overflowed and flooded many of the mineshafts. The storm was so sudden that if it had arrived during the day, many miners would have lost their lives. The water was too much to deal with, gold was left, and the town was abandoned.

The forest has claimed much of the site that was once home to one of **Victoria's biggest and shortest-lived gold rushes**. Still a place of interest for adventurers with prospecting and fossicking still permitted in **Heathcote-Graytown National Park**. Dating back thousands of years, the box-ironbark forest has been closely associated with providing food and shelter to the Aboriginal people of the region, and significant sites can be found throughout the area.

The National Park is ideal for bushwalkers and explorers with Mt Ida and Mt Black, the highest point in the area, and Viewing Rock providing stunning views of Heathcote and surrounding areas. There are 26 threatened fauna species and 9 threatened flora species that call the National Park home. A visit during August - October will reward you with an array of many beautiful wildflowers. For more information on the park visit [www.parks.vic.gov.au](http://www.parks.vic.gov.au)

### LOCAL HIGHLIGHTS

#### Explore

Graytown's **historic cemetery** is still in remarkably good condition. It is set in the forest approx. 700m off the main road. The German Heritage Society and interested locals have been helping with restoration over the years. During World War II, prisoners of war were camped at Graytown. The prisoners were guarded at night in the **POW Camp** but able to work in the forest during the day and many of these men settled in the district after the war.

#### Stay

Camping the night? Head to Dargile camping and picnic area for a night under the stars!

### LOCAL KNOWLEDGE

- The **historic Graytown cemetery** features a Chinese burial section; a marble headstone dated in the early 1870s with text written in Welsh and numerous other headstones with inscriptions.
- After the initial gold rush, lack of water became a significant issue. To solve the problem of buying expensive water, many prospectors started **washing their gold in beer**, which was in abundant supply and was much cheaper!
- During **World War II**, prisoners of war were camped at Graytown with approx. 250 Italian and German prisoners of war detained there and the **remains of the POW Camp** still exist today.

## LONGWOOD

Charlotte and Maurie, The Rockery Gemstone Museum

Live like a local in Longwood

### WHY WE LOVE LONGWOOD

Longwood's history dates back to the mid to late 1800's and it was originally located on the old Sydney to Melbourne Highway (now known as the Hume Highway), serving as a staging post for the horse-drawn coaches. The town then moved east by about 4km when the railway was built and a station was established at Longwood back in 1881, and the local school that is still in operation, was established in 1888.

Longwood is also the host of the **Victorian Carriage Driving Championships** held in November. Carriage driving in Australia ranges from the elegance of drivers, their gleaming horses and ponies and traditional vehicles in the show ring to all the action of combined driving and a lot more in between.

Sport, as with many country towns is the glue that binds the community - so grab a spot on the boundary with the locals on a winters Saturday afternoon and enjoy the action - tooting your horn for a goal scored is de rigueur!

### LOCAL HIGHLIGHTS

#### Explore

**The Rockery Gemstone Museum** houses nine rooms to explore and features a unique collection of intriguing gems, crystals and minerals from Australia and all around the world, including an impressive collection of jewellery, most of which is for sale.

### LOCAL KNOWLEDGE

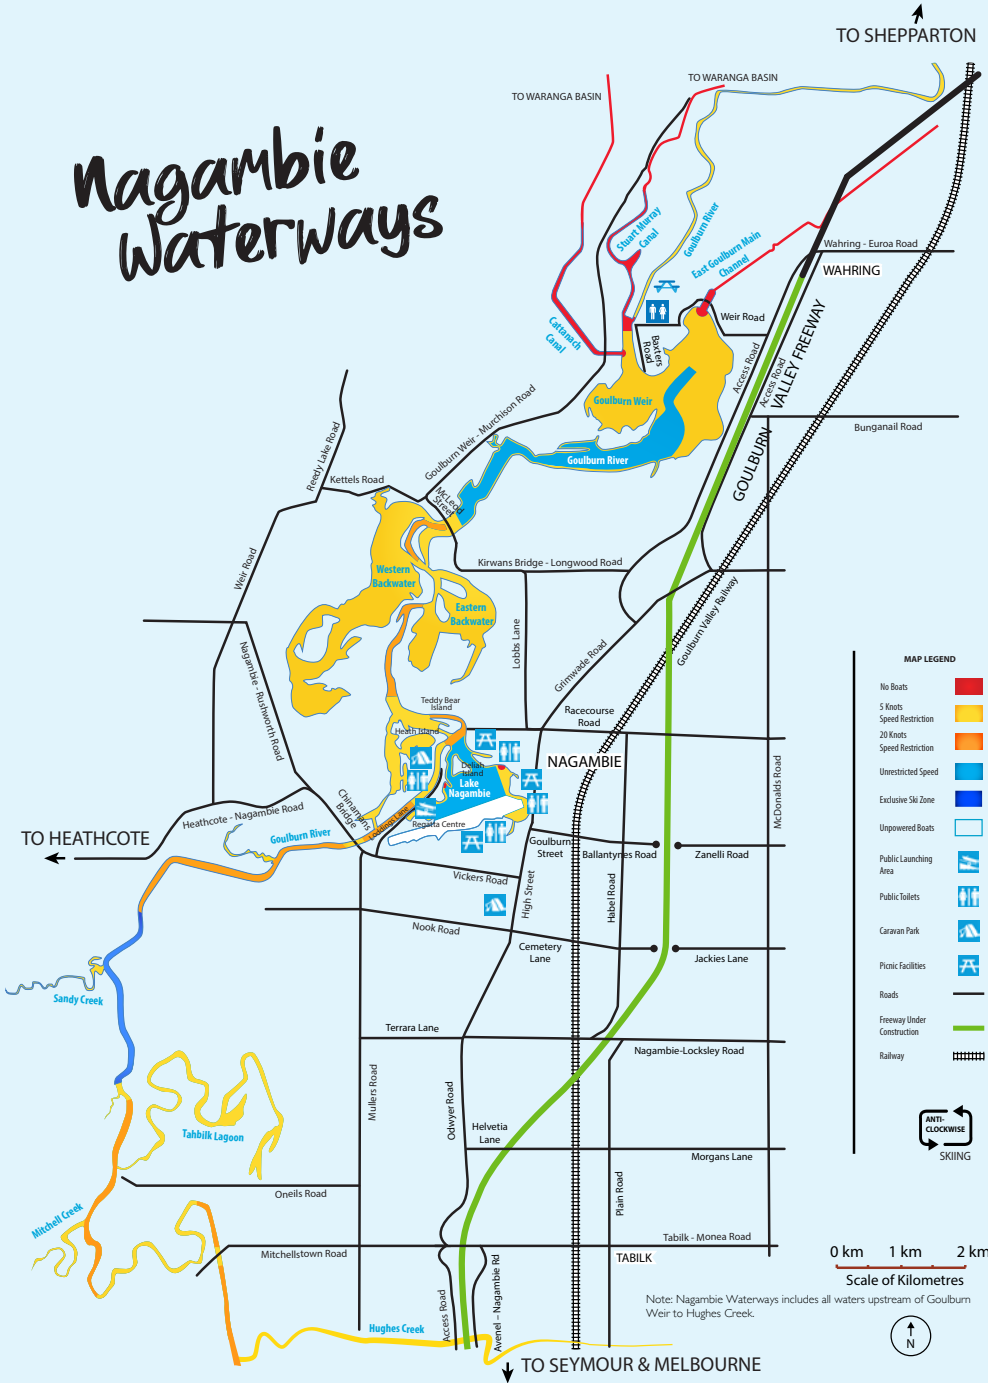

- When the railway was constructed in town back in the 1800's, rather than build a new pub nearby the new track, the locals simply picked up the existing Pub and moved it closer!
- Longwood is home to one of the finest range of gemstones in Victoria, located at **The Rockery Gemstone Museum**.
- Longwood is also the birthplace of Frederick Tubb, who was awarded a **Victoria Cross at Gallipoli** in 1915. Frederick Tubb is one of three from the area to have been awarded the Victoria Cross - Australia & the British Commonwealth's highest award for acts of bravery in wartime, and a memorial to him and the other Victoria Cross recipients from the area is located in the township of Euroa - just up the road!

## WHY WE LOVE NAGAMBIE

On the banks of the **Goulburn River** and the shores of **Lake Nagambie** sits the township of Nagambie. With official settlement occurring in the 1800's, the town has become a haven for young families and the 'young at heart' to both holiday and reside, due to its close proximity to Melbourne (only 90 minutes away), natural beauty, **laid back lifestyle** and array of experiences on offer.

Turning water into wine, **two of Victoria's premium wineries** are nearby. Tahbilk Estate, established in 1860 – Victoria's oldest family owned winery is home to some of the oldest Shiraz and Marsanne vines in the world, as well as having buildings and surrounds much unchanged from its early days.

Further down the Goulburn River and accessible by both road and boat is Mitchelton Wines, with its distinctive & impressive tower and lookout designed by renowned Australian architect Ted Ashton, it is also home to a **4 star luxury hotel and day spa**, and Aboriginal Art Gallery.

There is something for everyone in Nagambie, from historic areas, fishing, tracks and trails, cycling, water sports, skydiving opportunities, monthly community markets, eateries, shopping and so much more. If you're looking for a day trip, weekend escape, event location or tree change – come and visit Nagambie!

# Live like a local in Strathbogie

Main Street Strathbogie Township

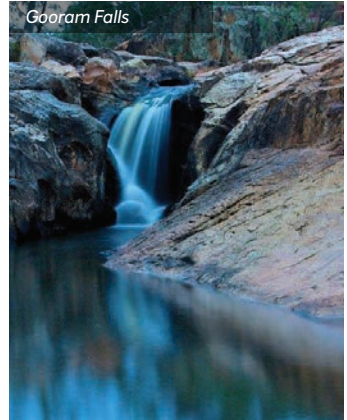

## WHY WE LOVE STRATHBOGIE

From 1842 squatters took up huge land holdings in the rugged Strathbogie Ranges and the tablelands to run thousands of sheep and cattle. Families arrived in the 1870's, and dairy and sheep were the driving industries in Strathbogie's early days and in the gold rush of the 1860's there were hundreds working the mines in the area. A second mining boom occurred in the 1940's with crystal mining to satisfy the quartz crystal component of early radios – crystal sets.

Vineyards have now replaced cattle, sheep and mining as the prime business pursuit of the Strathbogie region as savvy growers and winemakers take advantage of the cool climate and rich granite soils of the area. Surrounded by forests, farmland and striking granite hills the **environment is beautiful** with its native bushland, birds and animals.

The 'Bogies' as the ranges are often referred to is also a great **destination for bushwalkers and cyclists** and home to countless walks and scenic rides. Mt Wombat lookout offers excellent 360 degree views of the area from the plateau on top of Mt Wombat (799 metres), alternatively you can park halfway up and enjoy a pleasant walk.

## LOCAL HIGHLIGHTS

### Explore

Take in the incredible view from the **Mount Wombat** walk and lookout. The summit offers an amazing 360 degree view. Or walk the lovely **Bridge to Bridge track** and take in the beauty of this area.

### Play

The favourite local swimming spot is **Polly McQuinns**, where the water spills over large exposed granite boulders and across a natural spillway into a deep water pool and makes it a great place to cool down on a hot day, or visit **Gooram Falls** just down the road.

## LOCAL KNOWLEDGE

- The Waranga Basin and Goulburn Weir at Nagambie are both visible from the **Mount Wombat lookout**.
- The **largest hand cut-crystal in the world** was mined at the local Crystal King mine.
- Strathbogie Township wasn't connected to mainstream **electricity** until 1966.

Great day out - Violet Town Community Market

WHY WE LOVE VIOLET TOWN

The famous explorer, **Major Thomas Mitchell** first discovered the area when travelling to Sydney, setting camp in 1836 beside some ponds (Honeysuckle Creek) where wild violets were in flower – he so named the spot Violet Ponds. Two years later the government laid out the village of ‘Violet Creek’, intending to develop a stopping point for the growing traffic on the road between Port Phillip and Yass in New South Wales. In another first, Violet Town was also the **first town to have gas lighting in Victoria**.

In 1969, **The Southern Aurora** overnight express train tragically crashed just outside of Violet Town. A major community recovery effort ensued, however 9 people sadly lost their lives. There is a memorial dedicated to the people lost and injured and the locals who helped in the aftermath of the disaster.

Today, Violet Town is a thriving community with a friendly atmosphere and creative heart, as evidenced by the colourful welcoming entrance signage designed by the well-known cartoonist, writer, painter and philosopher, **Michael Leunig**, a local of Violet Town.

The famous **Violet Town Community Market** has been held on the second Saturday of each month since 1978 and is one of Victoria’s premier markets. With up to 250 stalls each month ranging from fresh produce, arts, crafts, jewellery, local beer and wine, furniture, great coffee and much more, you are sure to find what you are looking for – making a visit to this idyllic town a must!

Welcome, by Leunig

## LOCAL KNOWLEDGE

- **The Southern Aurora** disaster, rail accident, occurred on 7 February 1969, 1km south of Violet Town.
